## MOUNTING INSTRUCTIONS, For the Grillbrella 1000 and 2000

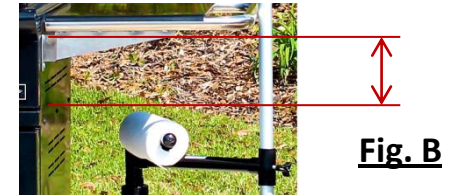

**Step 1-** Take the Main Unit out of the box and look for the “top” of the mount (marked “top”)

**Fig. A.** Align the Main Unit at desired position making sure the main unit is perfectly vertical and it is positioned as close to the front edge of grill as possible.

**1A -** Check the height making sure the arm (or towel rack if applicable) will clear any tray or any other objects. **Fig. B**

**1B -** The top main unit arm (this is the the arm with the thumb screw for holding the umbrella) must be at least 19" off ground to clear base. **Fig. C**

**\* Before proceeding shut off, and remove propane tank from Grill.**

**Step 2 –** Holding the unit in place, mark the grill where the holes need to be drilled or Skip Step 2 and go to Step 3. (Step 2 recommended for easier assembly ).

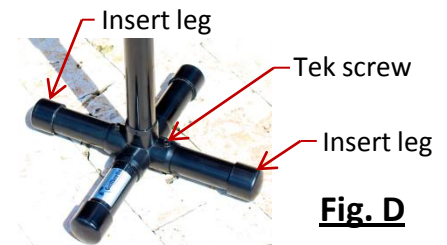

**Step 3 -** While holding in place use self tapping screws to fasten the main unit to Grill.

**Step 4 -** Remove any wrapping and loosen the 2 unions on the main unit. Adjust the swing arm in your desired position for your umbrella.

**Step 5 -** Take the base unit and insert the two legs into the base unit **Fig. D** and fasten with 2 self tapping screws in the pre- drilled holes. Position base directly under the main unit arm.

**Step 6 -** Insert your umbrella bottom pole, thru the top main unit tee and down into the base unit. After setting your desired height tighten the base unit thumb screw. Once you have decided your exact position of your umbrella then tighten the 2 unions on the main unit.

Before tightening the thumb screw on the main unit arm adjust arm to be as level as possible then tighten thumb screw. **Do not over tighten Thumb Knobs!**

## SAFETY WARNINGS and Helpful Hints, For the Grillbrella 1000 and 2000

1. ***Make sure your Grillbrella is installed on a flat level surface.***
2. ***Do not adjust Grillbrella position once grill is hot.***

3. ***Never use your Grillbrella in Thunderstorms!***
4. ***Make sure propane tank is clear and tank is shut off.***

5. ***Never use your Grillbrella in high winds.***

6. ***Always keep your Umbrella away from open flames.***

7. ***Always keep your Propane Tank shut off, when not in use.***

8. ***Keep your Grillbrella in the “parked” position when not in use.***

9. ***Fill the Base Unit with play sand to add stability!***

10. ***Do not drill or screw into the grill until the propane tank has been removed.***

11. ***DO BE AWARE THAT LOCAL ORDINANCES MAY SPECIFY A DISTANCE TO PLACE ANY OUTDOOR COOKER AWAY FROM A STRUCTURE.***
